

## SHOWA 707HVO

The 707HVO biodegradable gloves are a more environmentally-conscious choice, breaking down by 82% in just 386 days when tested in a laboratory. This eco-friendly alternative to single-use gloves doesn't mean compromising on functionality. The 707HVO are highly tactile and fit like a second skin, all whilst protecting against grease, chemicals, and abrasion. With complete EU Standard, FDA, and Food Contact Compliance, these gloves are ideal for use when working in laboratories or food preparation zones.
