

## SHOWA 451

Created with warmth in mind, our 451 thermal-insulated gloves are designed to be worn in cold weather. Its seamless liner reduces irritation and an elastic wrist cuff keeps dirt and debris out of the glove. Thanks to the natural rubber palm coating, the 451 gloves are also abrasion resistant with increased grip from the rough surface texture. When wearing these gloves, the hand is also protected from aggressive detergents and alcohols.
